

# There are a number of ways to save water and they all start with you

## **WATER-SAVING DEVICE #36**

Choose water-efficient drip irrigation for your trees, shrubs and flowers. Watering at the roots is highly effective, so be careful not to overwater.

## **WATER-SAVING DEVICE #50**

While fertilizers promote plant growth, they also increase water consumption. Apply the minimum amount of fertilizer needed.

## **WATER-SAVING DEVICE #1**

Water conservation starts with you. For more ways to save water, visit [www.WashingtonDrought.org](http://www.WashingtonDrought.org) or call 800-468-0261.
